OUR LOGO

Interloop Limited started with 10 knitting machines and has since grown to be one of the largest hosiery manufacturers of its time.

Our logo captures the evolution of the company through its origin in circular knitting and interlooping of yarn, dominance in the industry, and growth into a full family clothing supplier.

This Logo embodies bold strength
that reflects upon Interloop’s firm footing in the industry and business security of the group.

Corporate Logo

Carrying forward the legacy of circular knitting represented through the loops in the previous iterations. Our new logo is a simplistic and evolved version of the company's original landmark.

The Sans Serif font style signifies modernity, and the bold weight signifies stability, both in form and its function, tying well with Interloop's history
